

The Marathon Virtual Warehouse

User Manual

Searching for Stock Items

To search for stock items first go into the [Find](#) screen, in the Stock Code field enter in as much or as little of the code/codes that you wish to find, click Search or hit the enter key and a list of all items that match the search details entered will be displayed, see below example,

Code	Description	Warehouse	Manufacturer	Qty	Cost	Sellout	
ACAC6185E	AC DELCO OIL FILTER	Marathon - Merton	AC DELCO NSN PRODUCTS	✓			Order
AXB1854	AUT-X REAR DISC PADS REG90	Marathon - Merton	AUT-X FRICTION	✓	£9.84	£19.84	Order
AX6T46185	AUT-X REAR BRAKE HOSE	Marathon - Merton	AUT-X HYDRAULICS	✓	£3.80	£13.80	Order
AXBMC1854	AUT-X BRAKE MASTER CYL (EB)	Marathon - Merton	AUT-X HYDRAULICS	✓	£28.80	£38.80	Order
AXBMC1856	AUT-X BRAKE MASTER CYL	Marathon - Merton	AUT-X HYDRAULICS	✓	£41.11	£51.11	Order

The items displayed can be limited to show just one particular Manufacturer buy using the **Manufacturer Filter**, to use this simply click on the arrow to the right hand side of the box and a list of available Manufacturers for the size entered will be displayed

Code	Description
ACAC6185E	AC D...
AXB1185	AUT-...
AXB1854	AUT-...

The Marathon Virtual Warehouse

If stock is available on the items displayed a yellow tick will be displayed in the quantity column indicating that the item is available to order,

Ordering Stock Items

To order an item simply click on the [Order](#) option next to the required part,

Code	Description	Warehouse	Manufacturer	Qty	Cost	Sellout	
ACAC6185E	AC DELCO OIL FILTER	Marathon - Merton	AC DELCO NSN PRODUCTS	✓			Order
AXBP1185	AUT-X REAR DISC PADS REG90	Marathon - Merton	AUT-X FRICTION	✓	£8.98	£0.00	Order
AXBP1854	AUT-X REAR DISC PADS REG90	Marathon - Merton	AUT-X FRICTION	✓	£9.84	£0.00	Order

When you have clicked on [Order](#) you will notice that the screen moves to the [Pending](#) screen, here you have the option to confirm the quantity of parts that you wish to order by editing the number in the Quantity field, when you have done this click **Update Order**

Code	Description	Quantity	Price
AXBP1185	AUT-X REAR DISC PADS REG90	1	8.98

[Update Order](#)

You will then see an option displayed to **Create Order** click this to continue,

The Marathon Virtual Warehouse

All orders that are placed each today can be viewed on the [Today](#) screen, at the end of each day all orders in the [Today](#) screen will automatically transfer to the [Archive](#) screen, any orders that are older than today can be viewed using the [Archive](#) screen.

Using the Archive Screen

To search for items under the [Archive](#) screen there are 3 fields that you can search on,

- The original reference that the order was placed using
- The Part No. that was ordered
- The date on which the part was ordered

Sellout Band

Group	Start	End	Markup		
DEMO	0.00	500.00	10.00	Edit	Delete <input type="button" value="Add"/>

The last options that can be changed are as follows,

Other Options

<input checked="" type="checkbox"/> Show Sellout Column
<input type="checkbox"/> Show Markup Column
<input type="checkbox"/> Show Favorites Column
<input type="checkbox"/> Show Stock Code
<input checked="" type="checkbox"/> Enable Paging Show <input type="text" value="15"/> items at a time
<input type="checkbox"/> Hide Categories
<input type="checkbox"/> Hide Supplier
Order Mode: <input checked="" type="radio"/> Standard <input type="radio"/> Quick <input type="radio"/> MultiLine
<input type="button" value="Save"/>

The Marathon Virtual Warehouse

Show Sellout Column - This determines whether or not the sellout values that you have set up as above are displayed on the Find Parts Screen.

Show Markup Column - This determines whether the value of your Markup is displayed in the Find Parts Screen.

Show Favorites Column - This creates a new column on the Find Parts Screen for you to tick certain items if they are regularly ordered to add them to your Favorites list, when you then search in future you are able to search only for your favorite items using the Favorites Only option on the find Parts Screen (see first diagram for details)

Show Stock Code - This displays the Stock Code option on the Find Parts Screen.

Enable Paging Show items at a time - This limits the number of stock items that are displayed per page, the lower the number of items displayed the quicker the system will return the list of items during each search.

Hide Categories - This is a specific function that is not required for Marathon customers

Hide Supplier - When ticked this removes the Warehouse column from the Find Parts Screen.

Order Mode: Standard Quick MultiLine - This determines which type of Order Mode you wish to use, this is down to user preference.

After you have made any changes in the Setup screen you will need to click the Save button to save the changes
